- ▶ Easy to Install
- ▶ Expandable Audio System
- ▶ Wireless Bluetooth® Streaming
- ▶ IPX5 Marine Rating
- ▶ Sealed Speaker Connectors
- ▶ Convenient Control
- ▶ Harman Standard Reliability Testing
- ▶ JBL Industrial Design

# CRUISE X

Weather-resistant 4-channel multi-application Bluetooth® audio system

## Features and Benefits

### All-in-one Amplified Bluetooth® Audio System

JBL Cruise X has everything you need to keep your music with you on the go.

### Easy to Install

Rugged bracket design that allows you to mount the speakers almost anywhere and it swivels to put your music in the sweet spot.

### Expandable Audio System

JBL Cruise X is adaptable to almost any audio system. Full-Range RCA input & output, with 12V remote output, make it easy to add-on a powered subwoofer, soundbar, or Cruise X to this one, or add to an existing audio system.

### Wireless Bluetooth® Streaming

Stream music via Bluetooth, with 38m outdoor range / 10m indoor range.

### IPX5 Marine Rating

IPx5 Marine Rated speakers to meet the demands of outdoor environments.

### Sealed Speaker Connectors

Deutsch style speaker connectors to provide protection for any wiring exposed to the outdoor elements.

### Convenient Control

Wired remote control, capable of flush mount or underdash installation, allows Bluetooth® pairing, volume control, play/pause, and track forward/back.

### Harman Standard Reliability Testing

JBL speakers have to undergo a testing process that would destroy lesser speakers. JBL freezes them, bakes them, shakes them, and drives them at full power for days at a time.

### JBL Industrial Design

At JBL, we take pride in our iconic design heritage. Our design team took great care to ensure that your JBL Cruise X will look great mounted wherever your music takes you. The smooth curve of the enclosure body, angular grille face design, and flush mount remote control all tie together with our classic, current and future design language while concentrating on the design of your lifestyle.
